Why SHARE?

What is SHARE?

The SHARE Consortium is an automation and resource-sharing partnership founded in 2005. The current members are Lakeshores Library System, Kenosha County Library System, and Arrowhead Library System. SHARE serves the counties of Racine, Walworth, Kenosha, and Rock.

Why is Arrowhead Library System joining SHARE?

To reduce costs to allow your library to provide excellent service and programming.

To upgrade circulation/catalog software at each library to provide patrons and staff more functionality and efficiency.

To empower you with more control over your library experience through access to more materials and account management tools.
