

The garden and the butterfly

By: Henry and Hadleigh

My name is
Milkweed the
butterfly.
Milkweed is my
favorite food. My
favorite colors are
pink and orange.

Milkweed the butterfly
is losing nectar. If
Milkweed doesn't find
her nectar she won't
survive.

Milkweed is going
on her journey to
find more nectar.

While Milkweed went on her journey to find more nectar she came across a beautiful bridge.

Milkweed
came across
flowers. But
somebody
already took
the nectar.

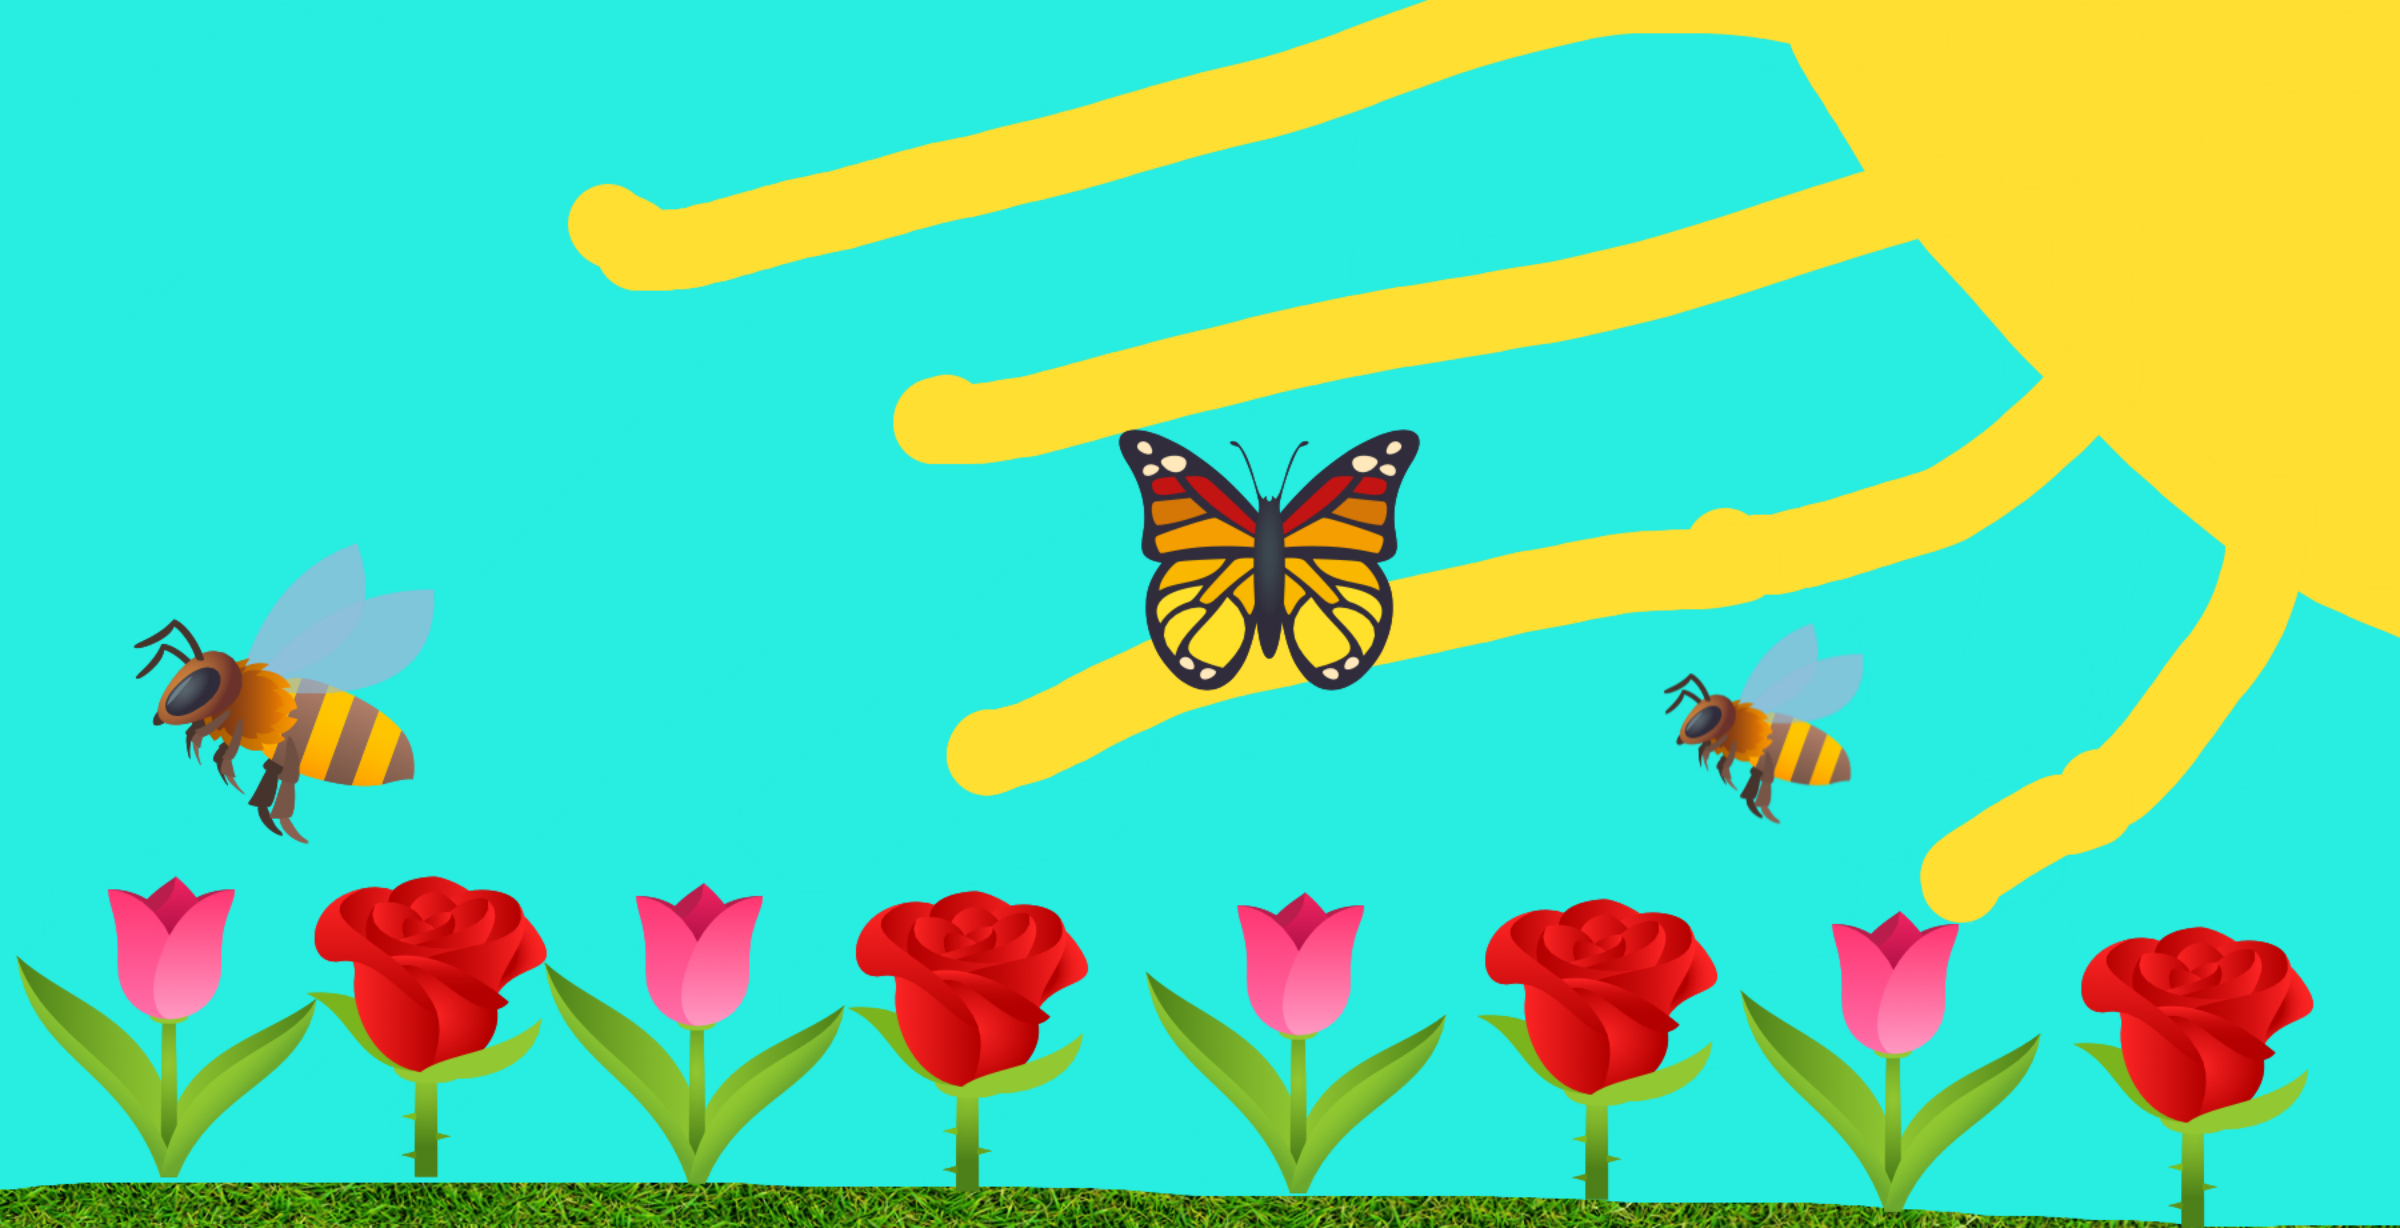

Milkweed started making her way through the
jungle.

After Milkweed made it
through the jungle she came
across a field filled with
flowers.

Milkweed is finally
enjoying her nectar.

The
End!
