

The Magical Book

By: Mae Hagen & Scarlett Kjelland

As Mia, entered the library with Happiness in her mind she was ready to start a reading adventure.

As she pressed the cupcake scented buttons and was on her way to find the most silly book anyone has **EVER SEEN!!!!**

Mia pondered over the most
silly book she had ever seen.

She slowly wondered if this
was the book she needed!

Mia put her play-doughy
hand on the the book...she
suddenly heard a scream
coming near by.

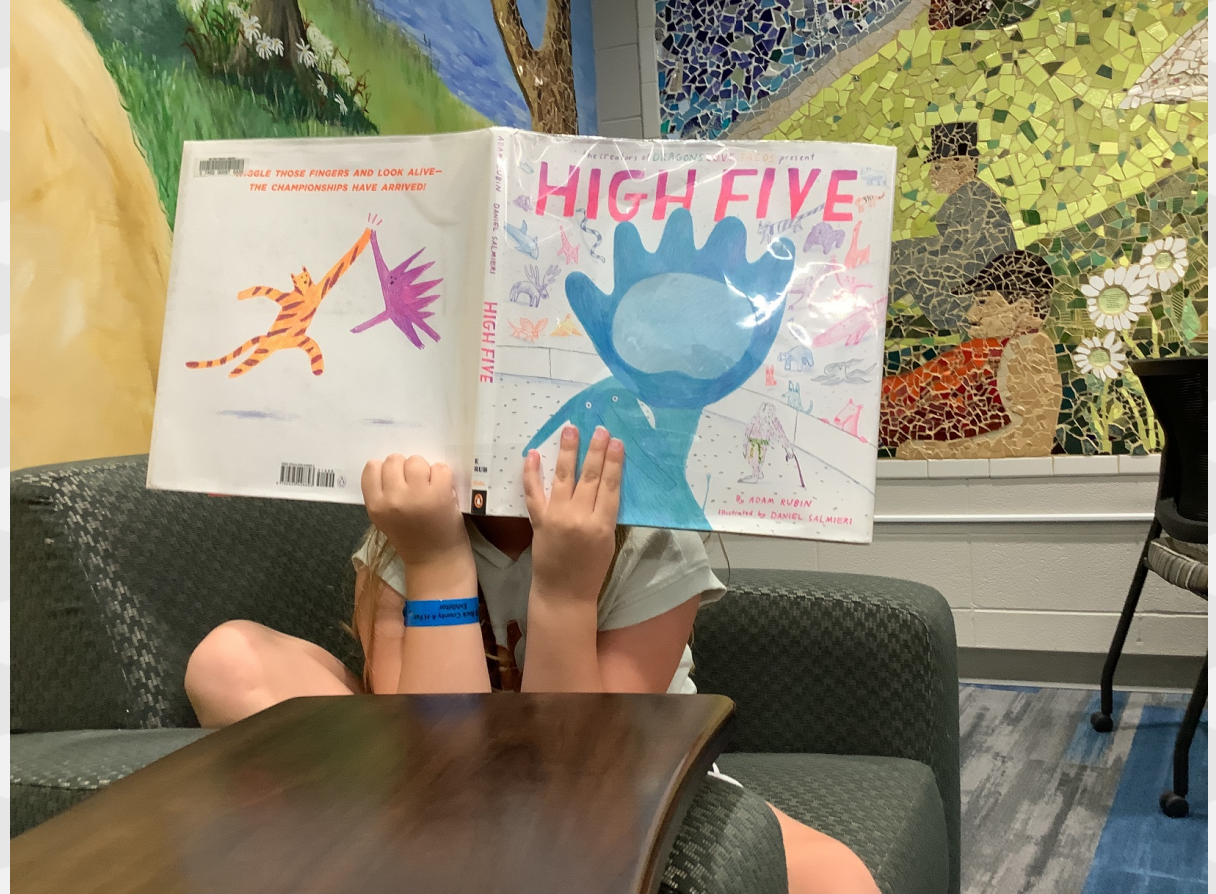

Here is the
proof

This fairy girl came out of
nowhere and started shouting at
Mia not to touch the book.

Mia Scoffed and said “ I don’t need to listen to that wacko... she’s crazzzyyyyyy”

Mia, snatched the book and started to read...

The background features a dynamic, abstract spiral pattern. The spiral originates from a central point and expands outwards, creating a sense of motion and depth. The colors are primarily red and blue, with the red appearing more vibrant and the blue more muted. The lines of the spiral are blurred, giving it a fluid, almost liquid appearance. The overall effect is one of intense energy and visual complexity.

Let's make sure you understand
how to position your hand:

“Huhhh? What...
happened... Ahhhh!!! I
**AM TRAPPED IN
THIS BOOK**”

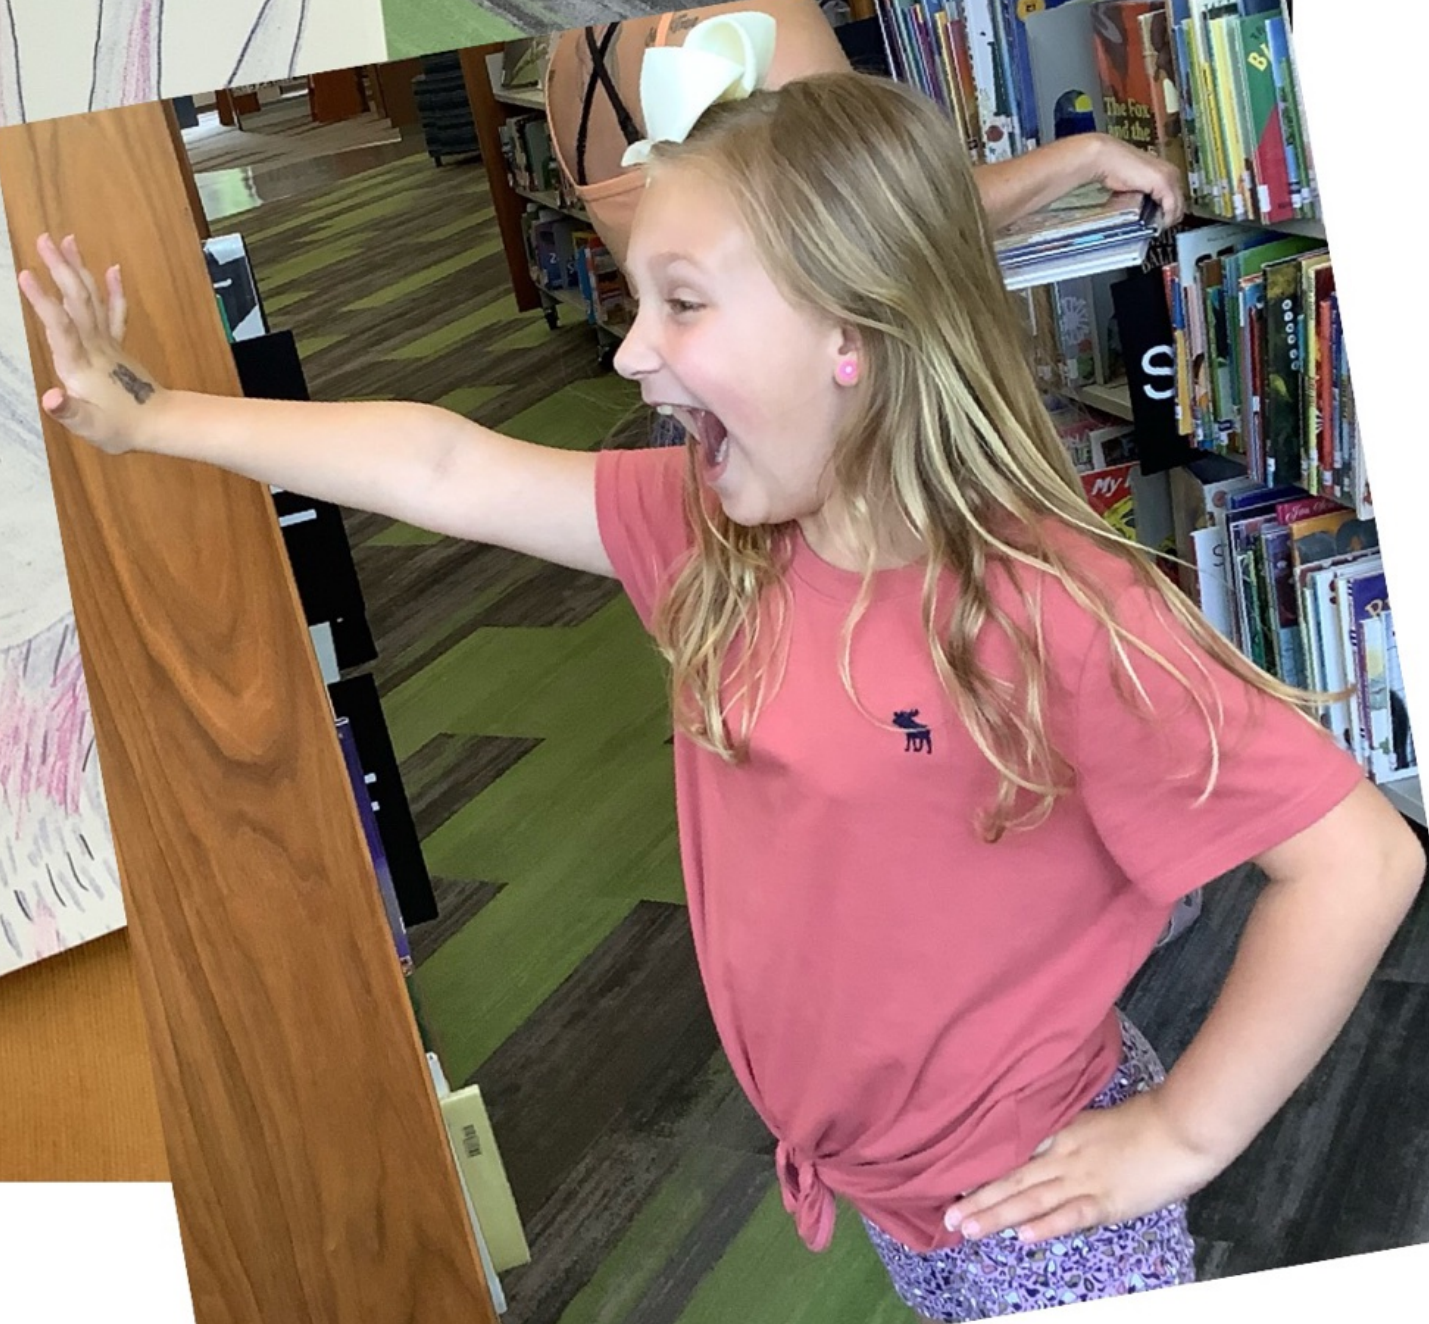

“ I must find a way to get out of this book... I know I will finish it myself ha ha!”

Perhaps you didn't understand—
don't want to see something bland.
I want to see something brand-new,
a high five only you would do.
A fresh technique
that's so unique,
it leaves me unable to speak...

HIGH FIVE!

HIGH
FIVE!

The background is an abstract, swirling pattern. It features a central vortex or spiral that draws the eye inward. The colors are primarily deep reds and magentas, with streaks of bright blue and cyan interspersed throughout the swirls, creating a sense of motion and depth. The overall effect is reminiscent of a nebula or a high-speed camera capturing a fluid in motion.

AaAaAaAaAaHh

“Yayyyyy!! I’m
happy to be back!”

The End?
