

Traveling
with Ann
or Co
by Cora & Violet

I am an orca. My name is Vega. I like to swim and play. I live in a tribe of orcas that hunt salmon for food.

I
am
so

Mom

Mom is going to have a baby today. I am so excited for her and the baby! Her name is Capella.

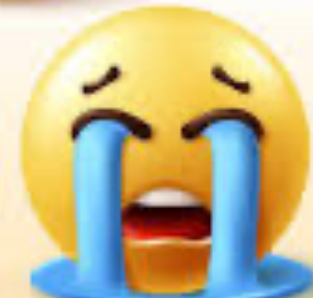

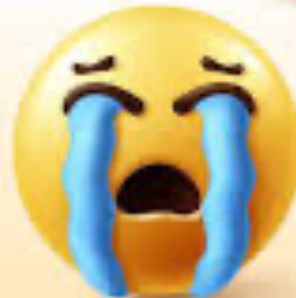

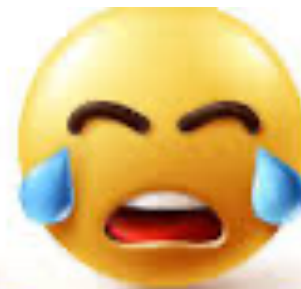

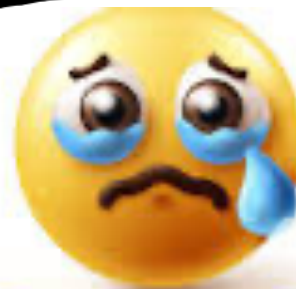

The baby is so sweet! I get to show her around and take her to Blood Cove. She's so cute!

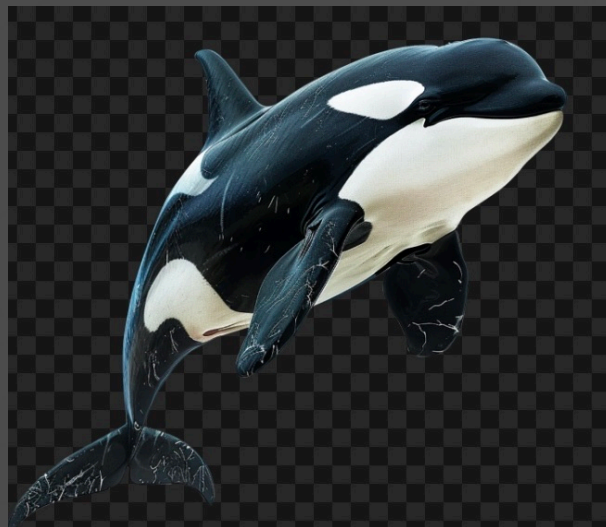

I'm so sad 😭 I think we are lost!!

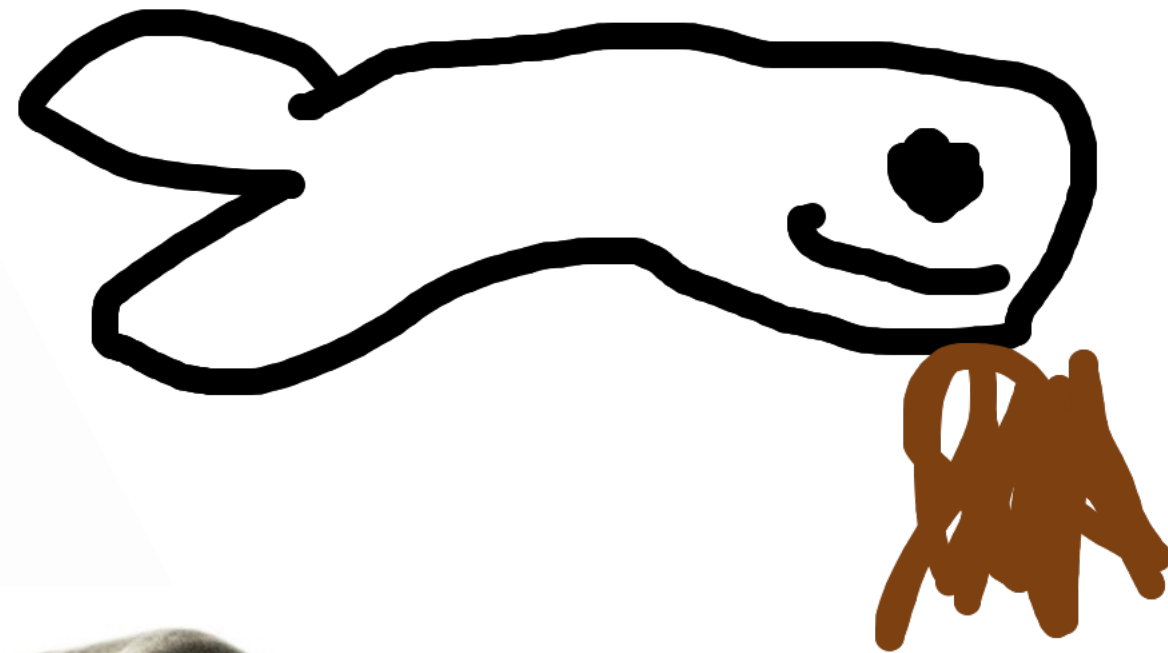

I would do anything to get back home. I will give all of this away to get her back home.

I took her to Blood Cove tonight. I was lost until Denab came to find us. Now we all of us are lost. Denab found a seal eating orca. Now we are traveling with the seal eating orca. An earthquake came and we dove under the water to stay safe. Rocks came tumbling after us, but the water kept us safe.

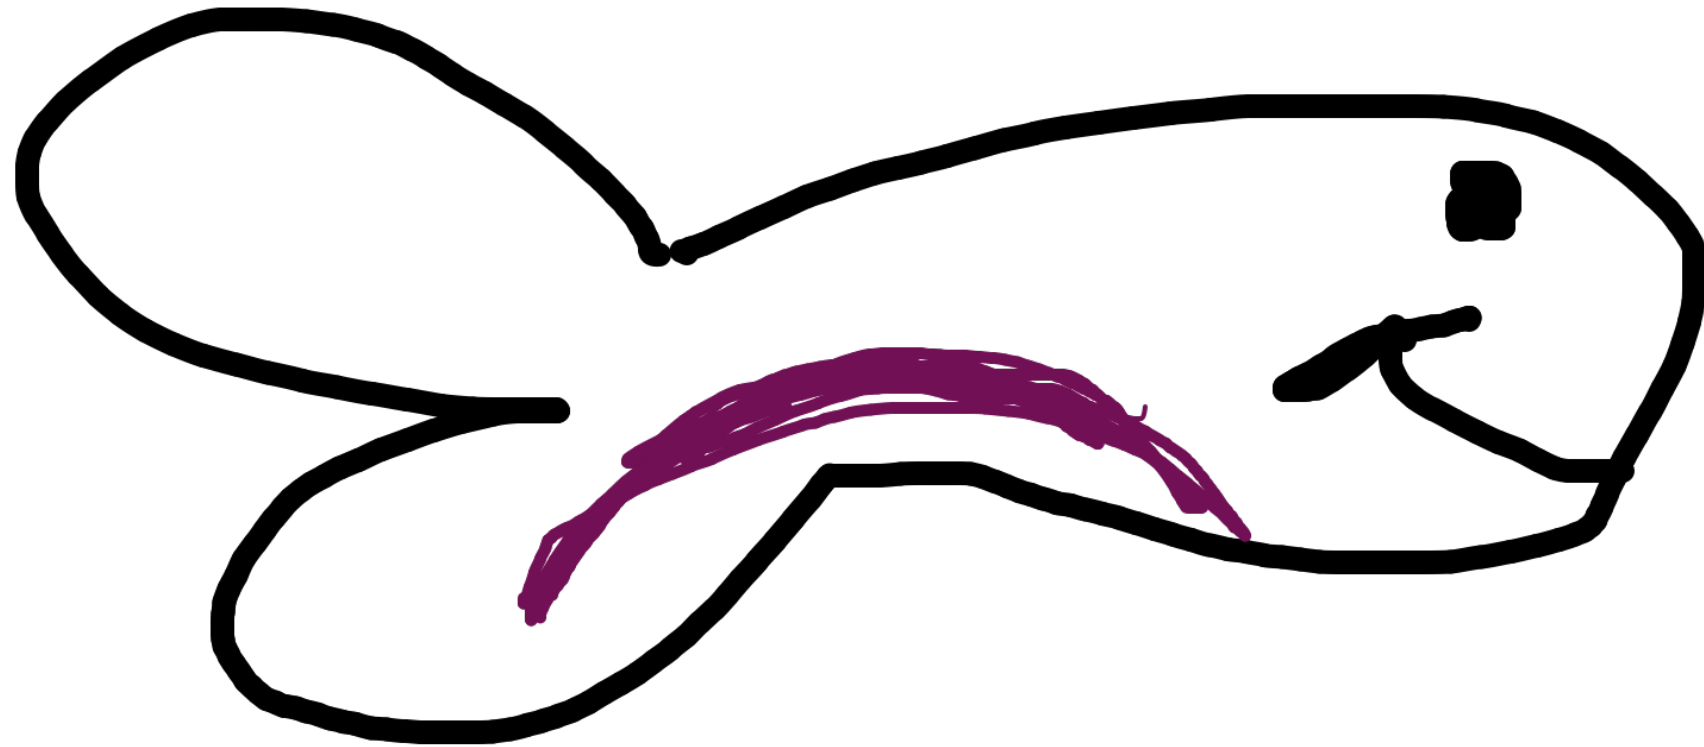

After the earthquake left us, we found some seal and the stranger ate it. Denab tried some too because he was hungry. I did not eat any. Denab was sick, and he threw up because seal is not good for us. We are the salmon eating orcas.

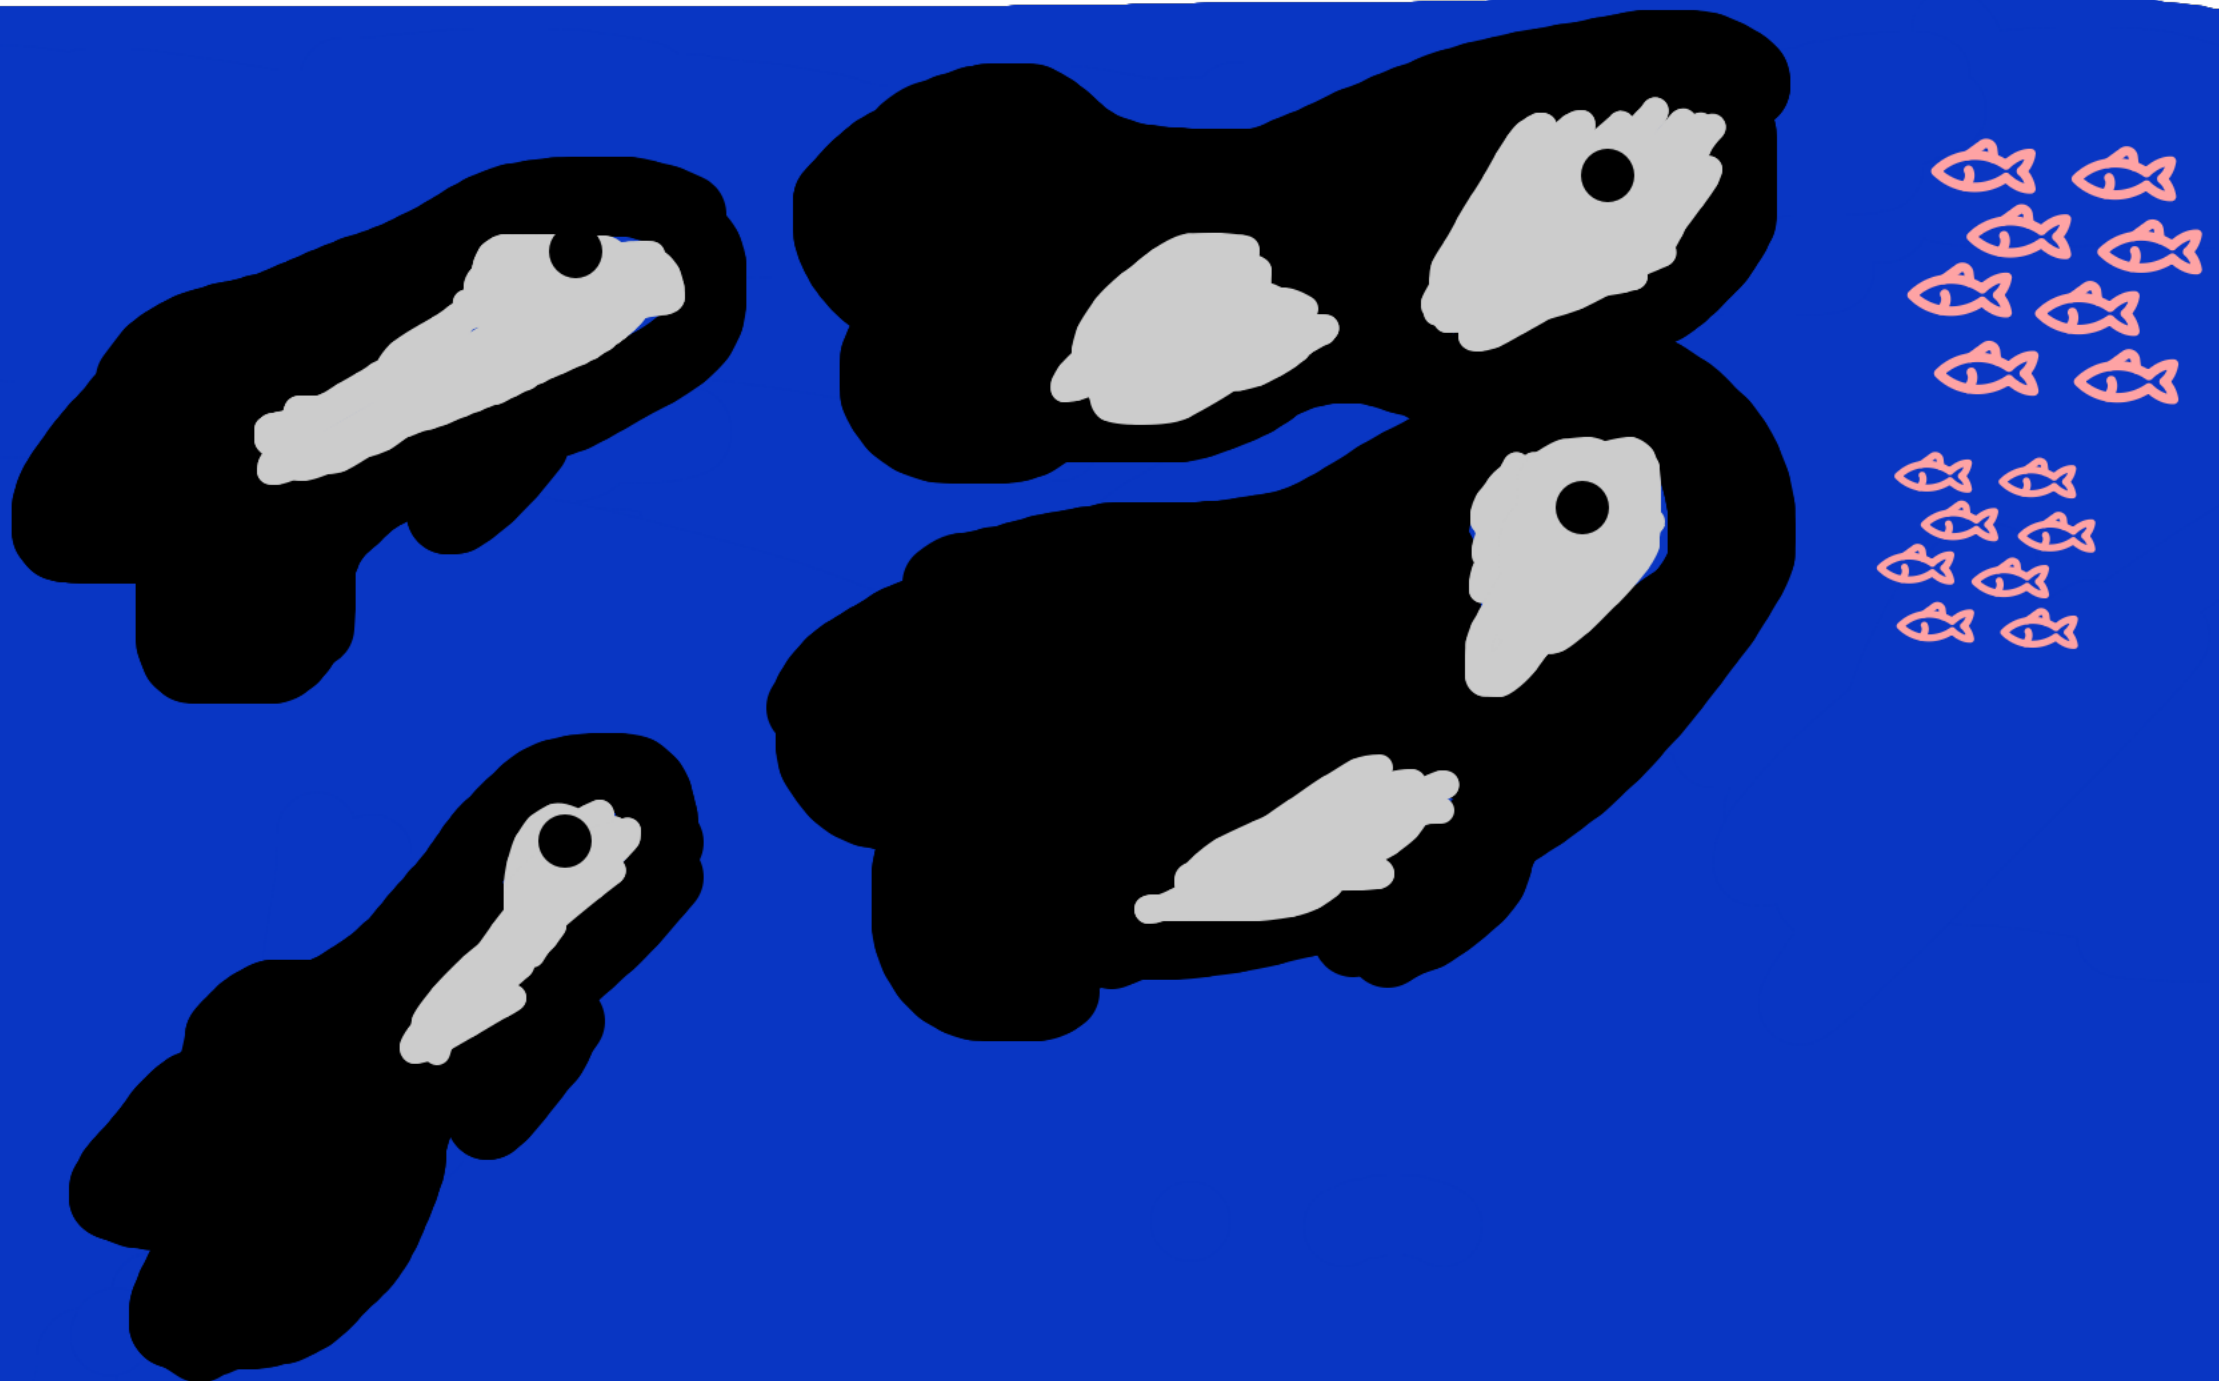

We need to try and figure a way home. I miss my family. Will I ever see them again? Denab and I find more orcas. We think they are part of our clan. They are not part of our clan, but they are very kind and say we can stay with them for a while. We find out they are shark eating orcas. They attack and eat some sharks, we try it too. We hate it, it's disgusting. Denab was attacked by a shark. He has a long bending scar on his side. What am I going to do?!

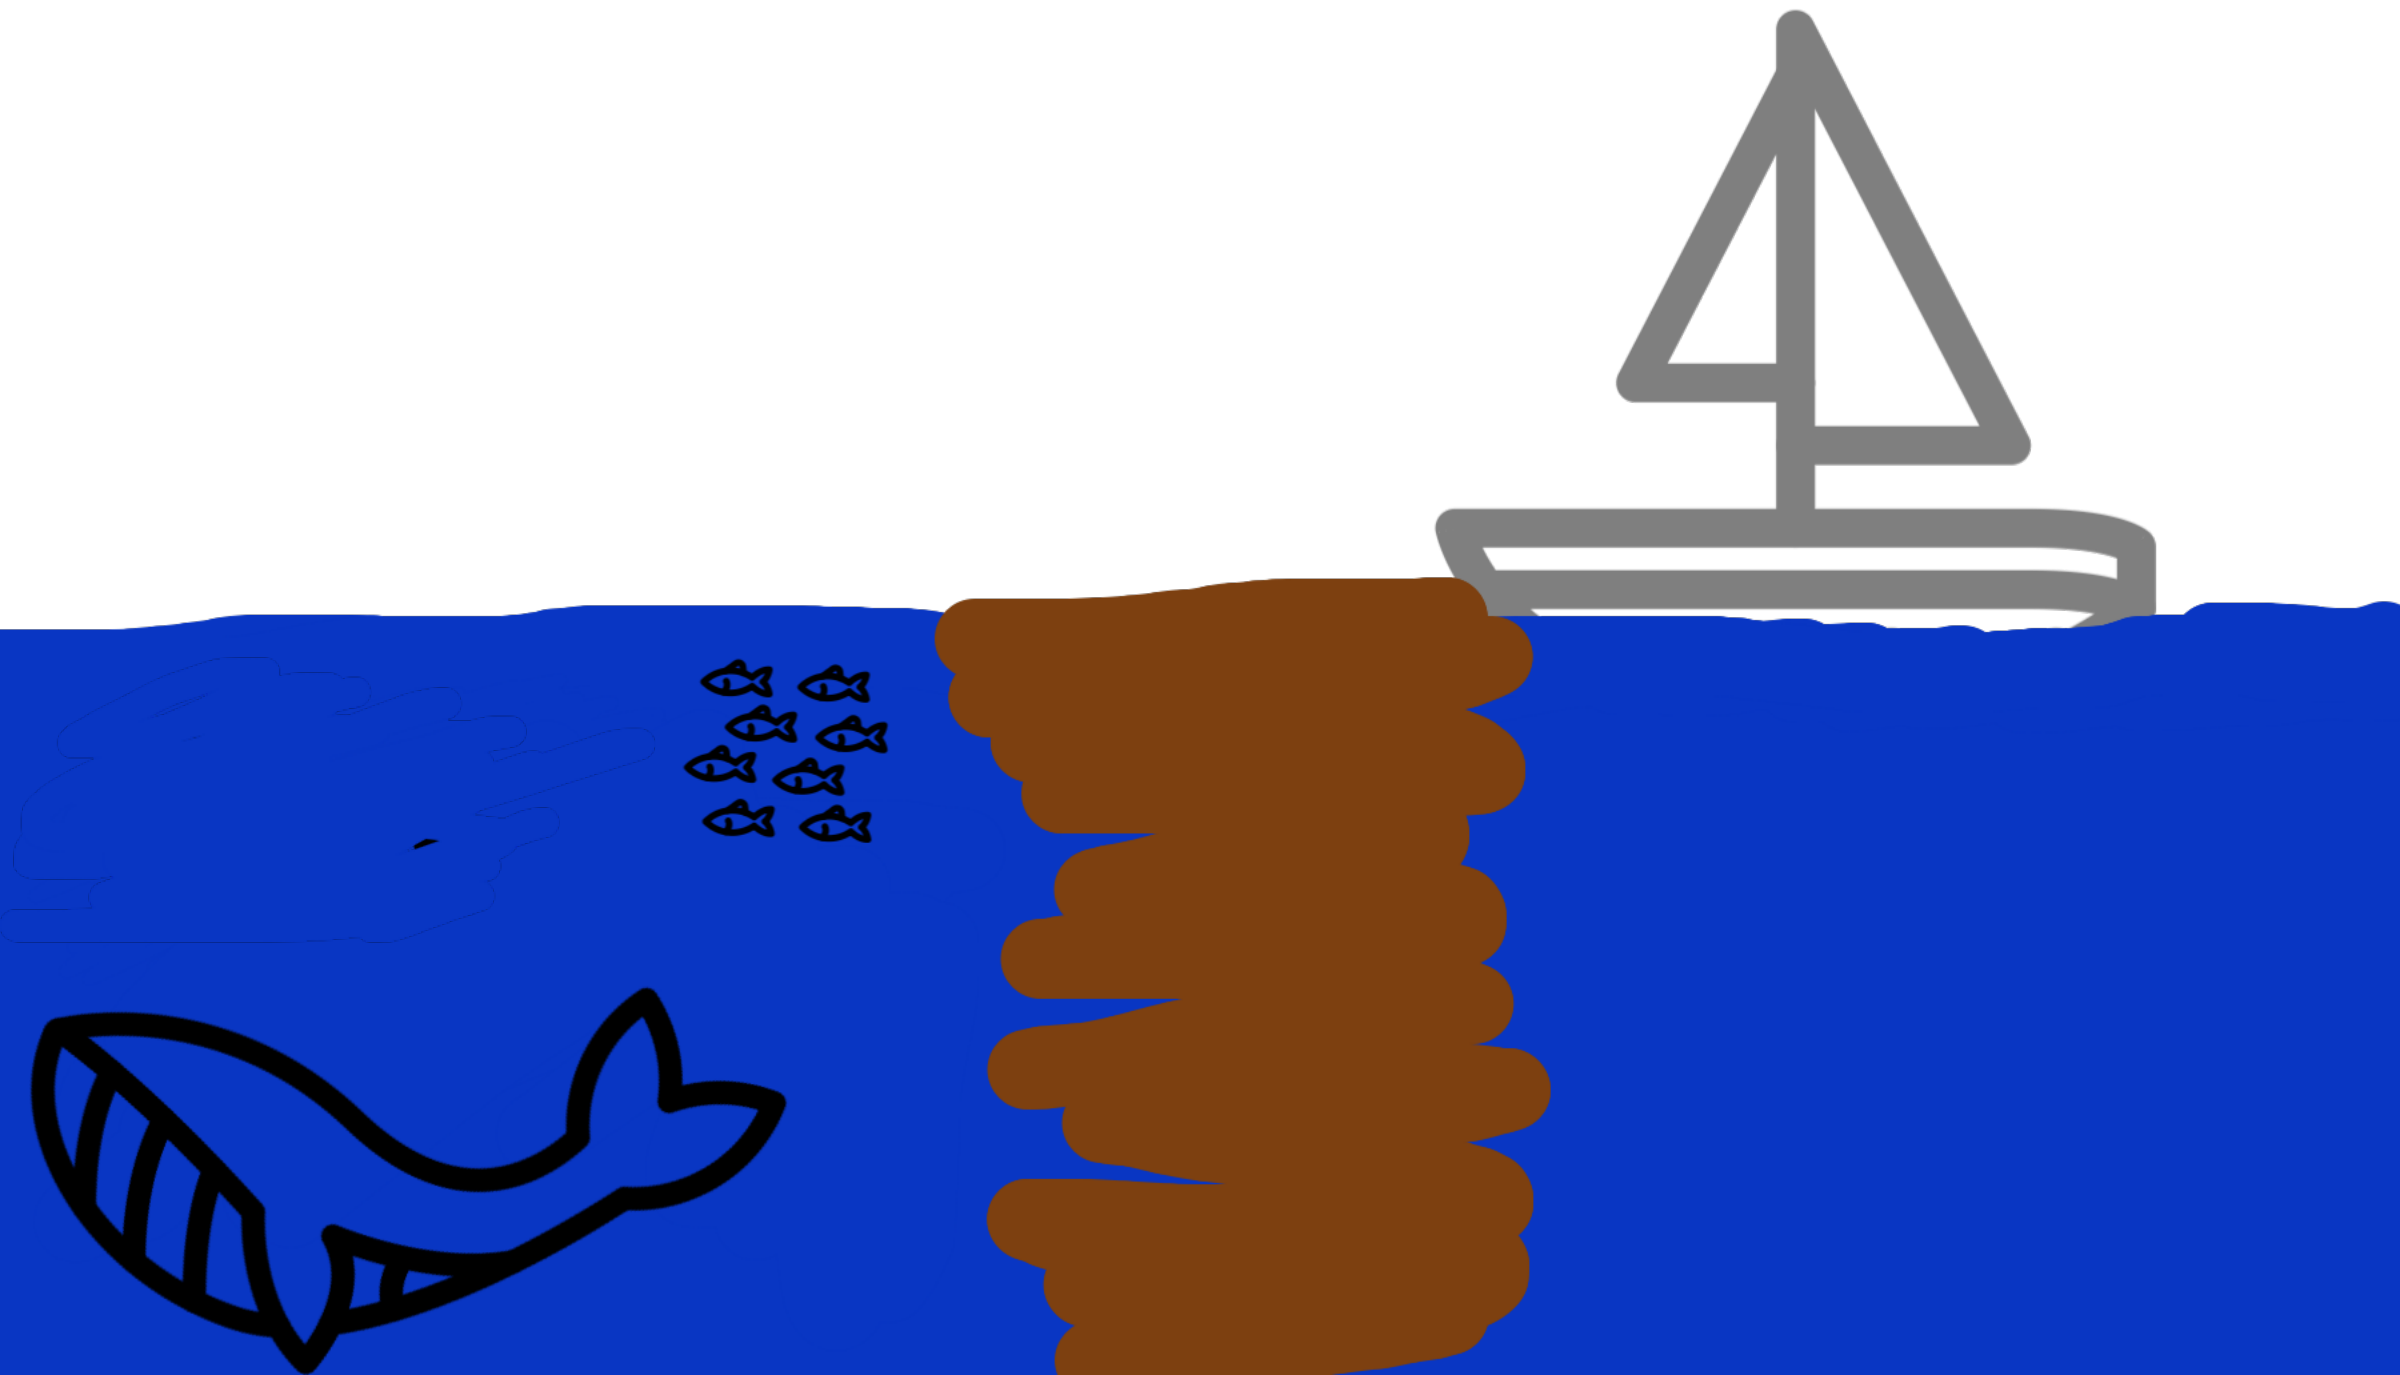

He likes his big battle scar. He said he's always wanted a cool scar.

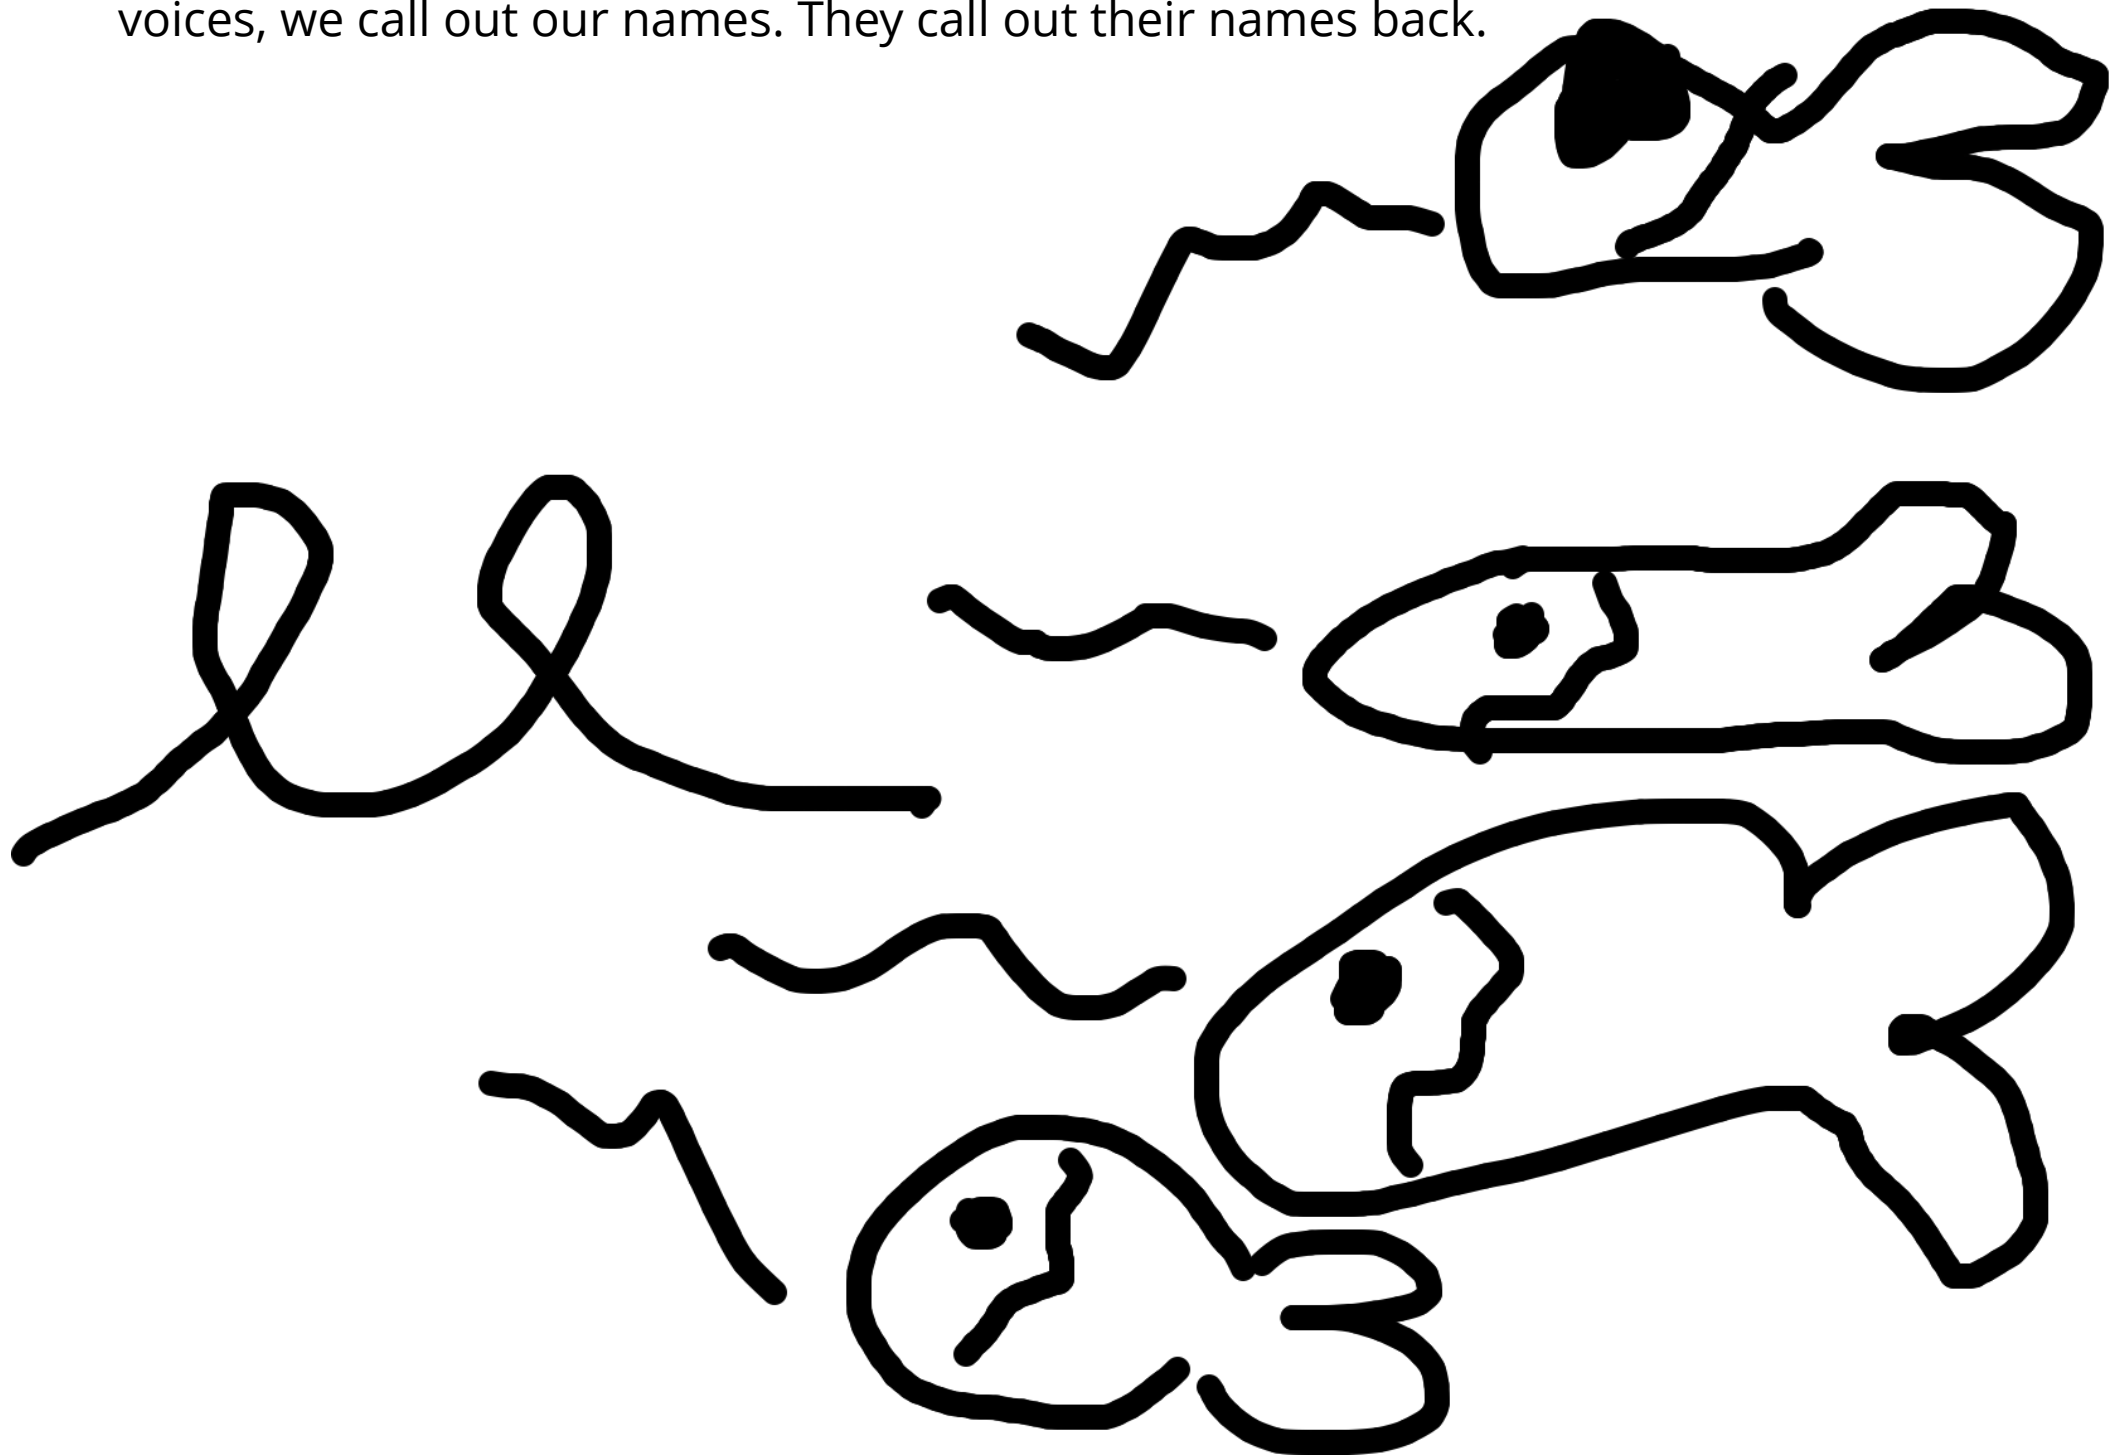

We finally find Aquila she and her baby Altair, we look for salmon together. Aquila is very weak. We find a bunch of salmon, but something is wrong. They don't try and run away, it looks like they can't!

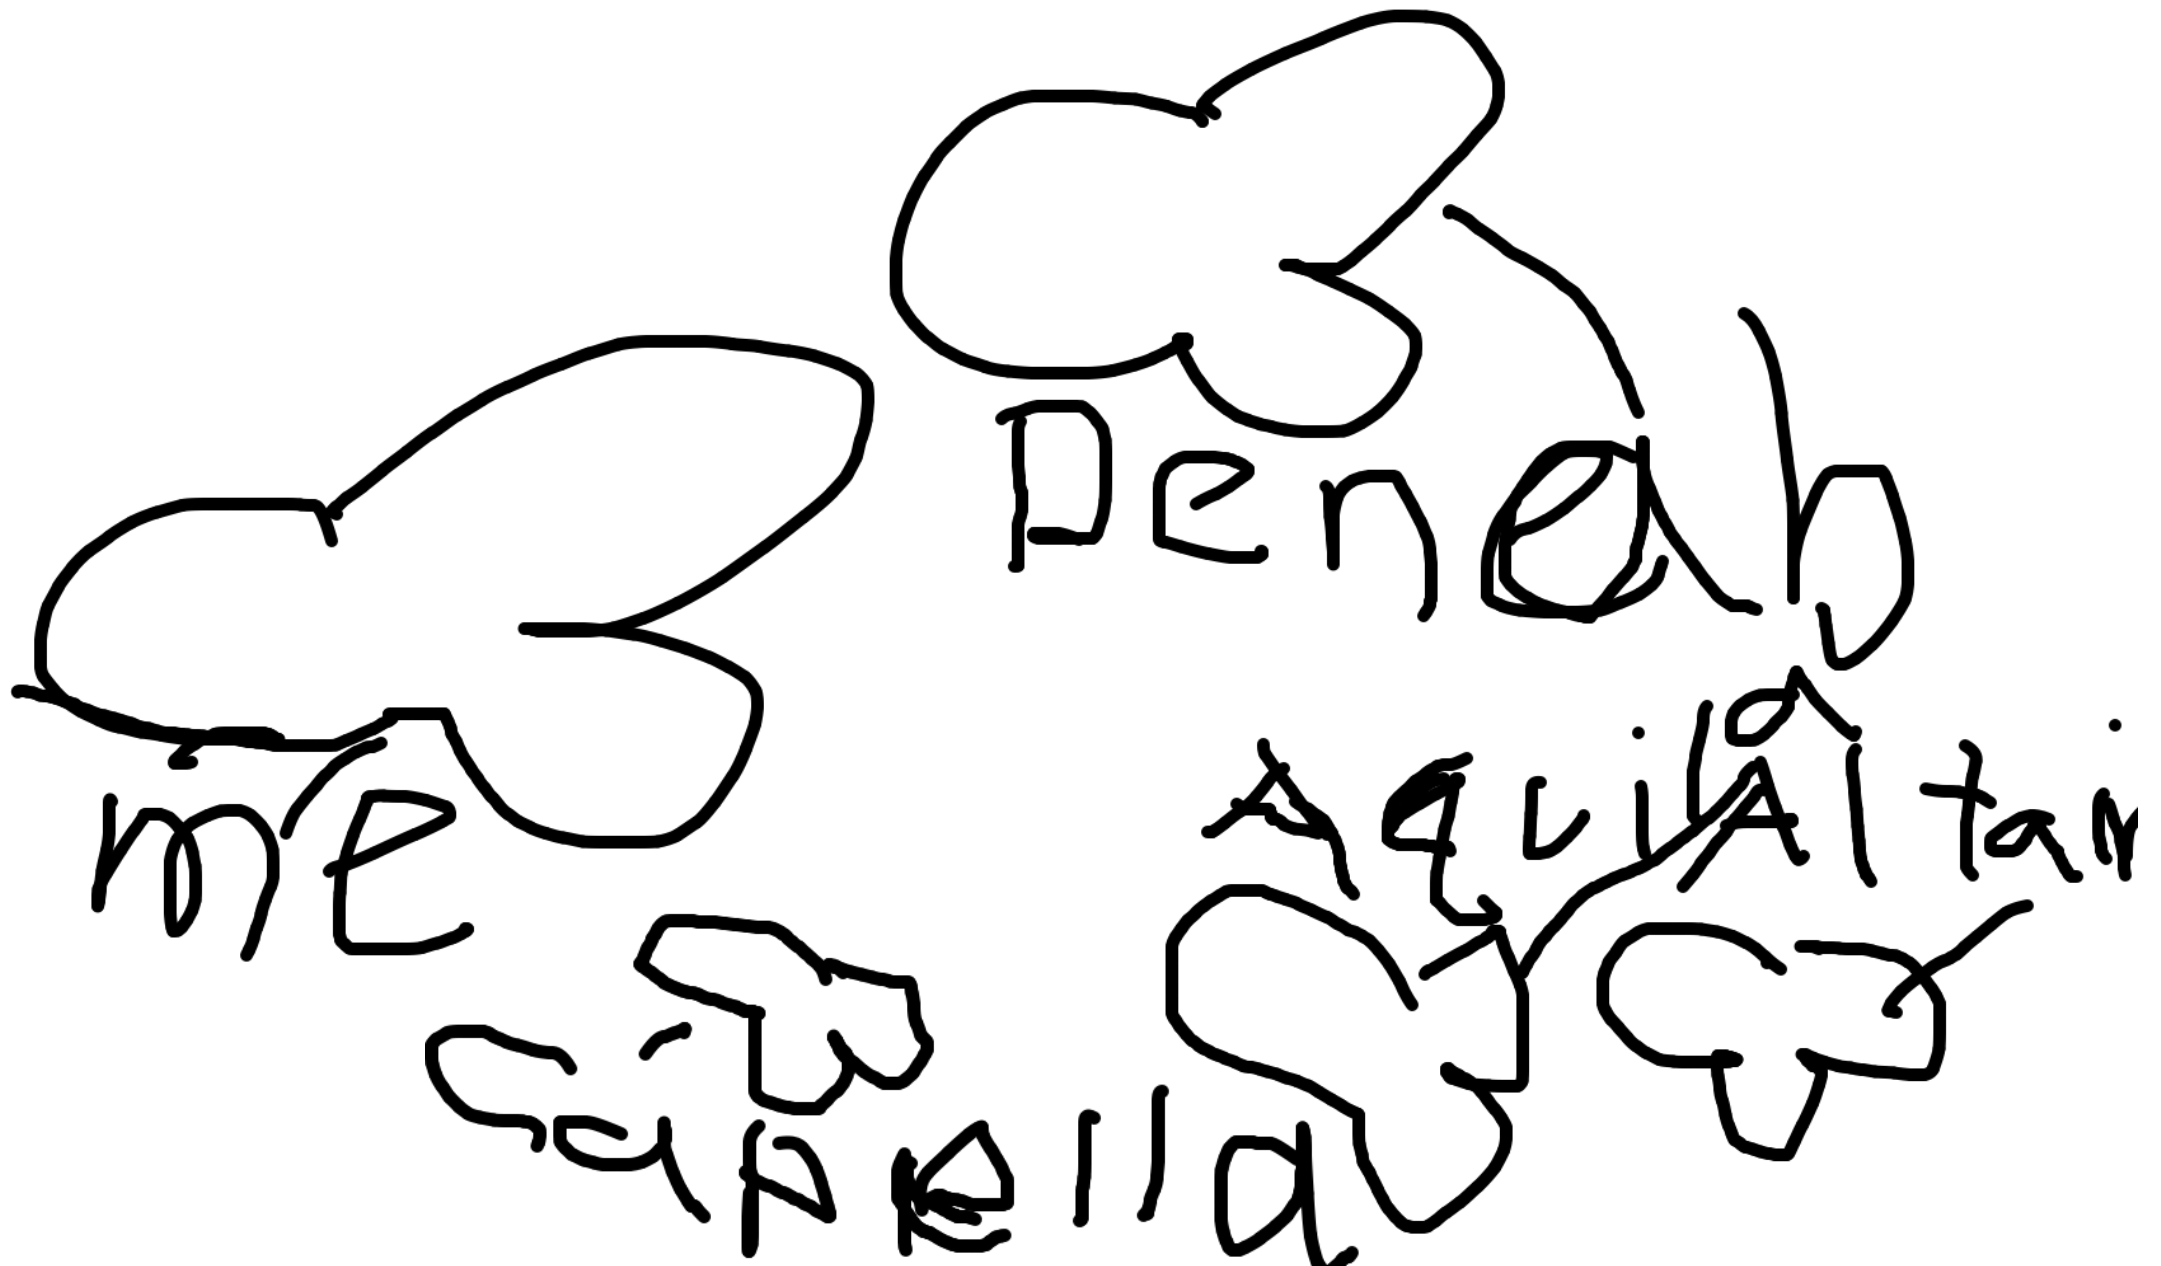

There's a dam keeping the salmon from moving! I spot some human workers, and I swim over to them. I try to get them to come over. They help get the logs out of the water. Now the fish are free!

After a big snack of salmon, we try to find our way back home. Finally, we hear voices, we call out our names. They call out their names back.

We found our family! They were worried about us. Aquila was split up with the rest of the family when she went to look for me, Capella, and Denab. We have been missing for too long, thats why she came to look for us. Denab came to look for me and Capella before Aquila did.

The
End.
